RoboRally Junge Junker

1.LoginApplication:

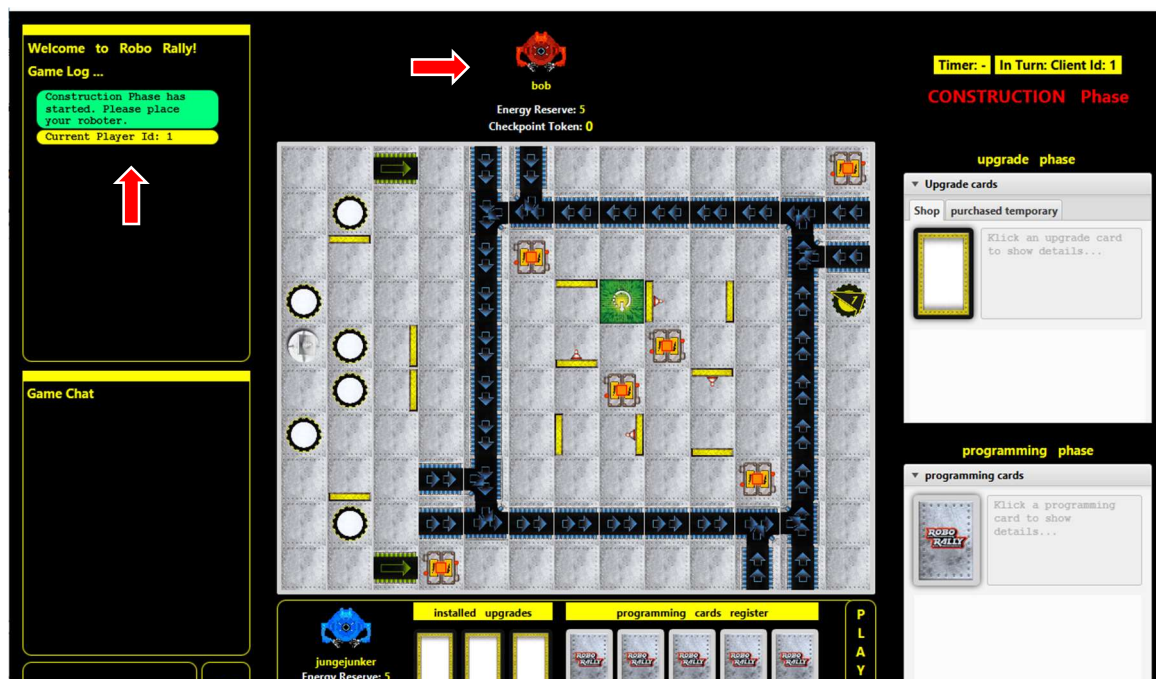

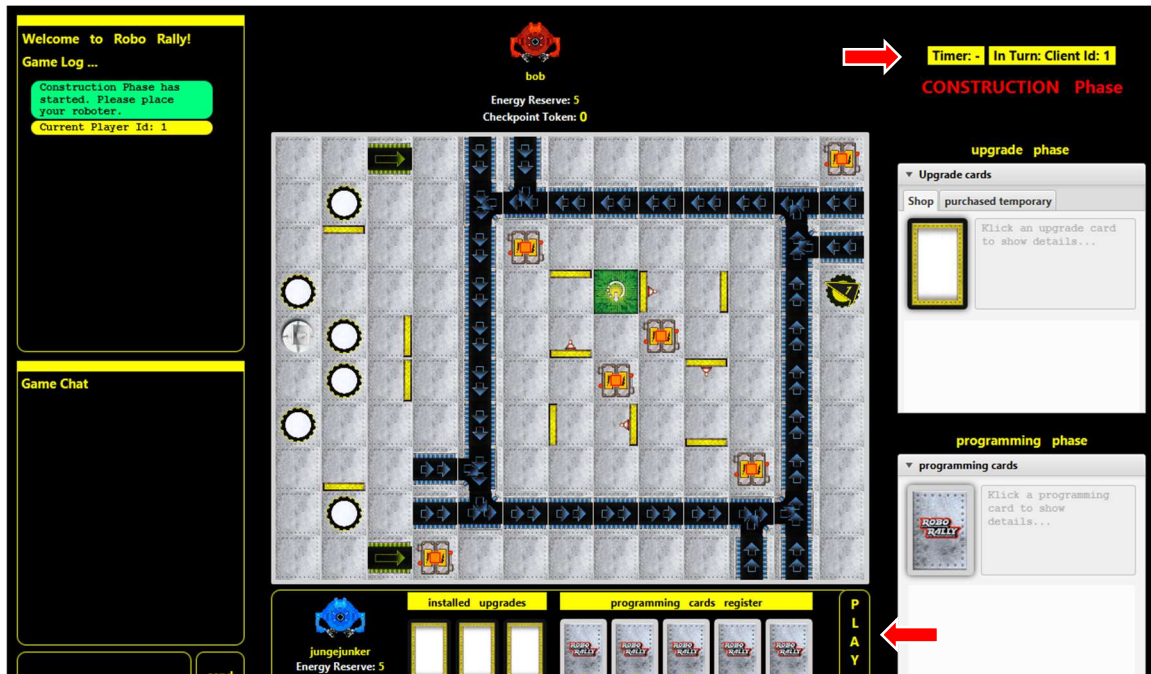

2.Welcome to the Lobby:

3.May the best robot win…

Not sure what the next step is… You may check the Game Log which holds all information regarding the current situation of the game. Your opponents are shown on the top.
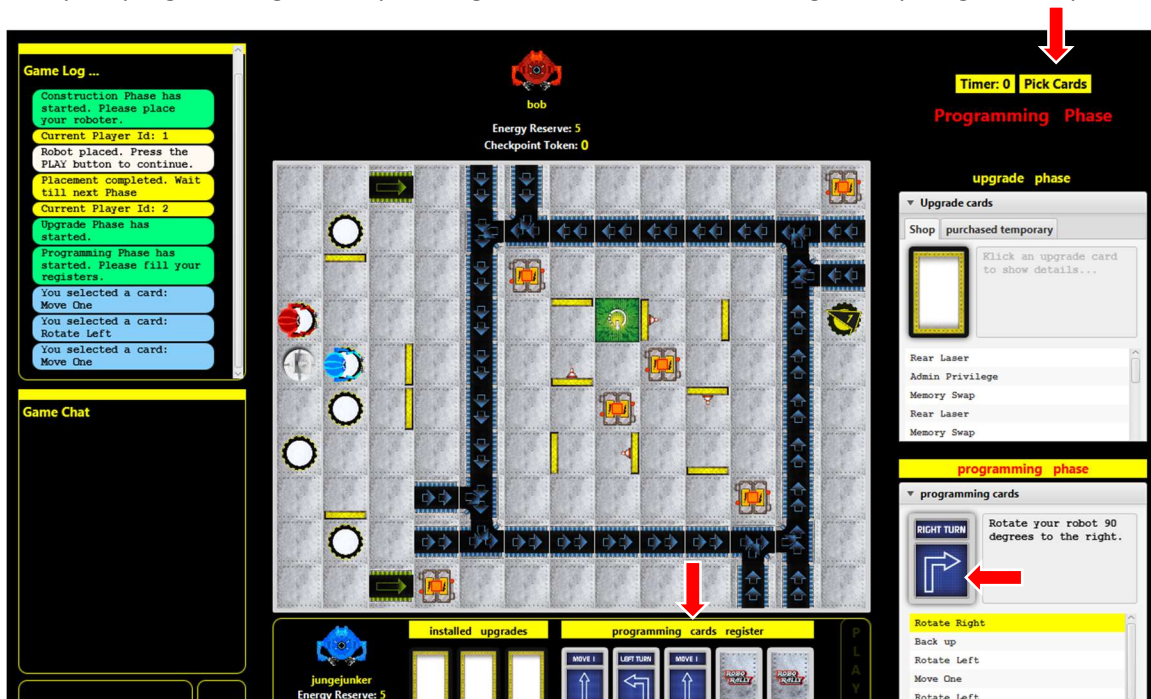

Placing your robot:

"In Turn" shows the player who´s allowed to do something at the moment. The Game Log will remind you as well what to do next. Pick your gear by clicking on it and change it as often as you like. To finalize it press the PLAY button.

UpgradePhase & ProgrammingPhase:

Have an eye on the timer during the UpgradePhase.

Pick your programming cards by clicking. Decide the order of the register by drag and drop.

After choosing the programming cards every player one after another will play each register by clicking the PLAY button. The card which will be played is highlighted green.

If this register is finished the UpradePhase & ProgrammingPhase will start again.
